

SAFETY DATA SHEET (SDS)

In accordance with GHS Rev.9 / EU CLP Regulation format (16 sections)

THE MOOSE SCENTED — SCENTED SACHET (PERFUME SACHET)

Range SDS — covers ALL scent variants of dry scented sachets. One SDS per formula platform, not per scent.

Revision date	Version	Supersedes
17 July 2026	1.1	— (first issue)

SUMMARY: This is a finished consumer article and is NOT a dangerous good for transport (no UN number). It contains fragrance, so a precautionary allergen advisory is included.

SECTION 1 — Identification of the substance/mixture and of the company

1.1 Product identifier: Scented Sachet / Perfume Sachet — fragrance range

This SDS applies to ALL scent variants of the dry scented sachet (absorbent carrier material infused with fragrance oil, enclosed in a pouch). Hazard properties are set by the format and fragrance load; a single range SDS covers every scent, with allergens classified worst-case.

Product code: TMS-SACHET series

Product type: Finished article — solid absorbent carrier (paper/fabric/beads) infused with fragrance oil, in a sealed pouch

1.2 Relevant identified uses: Home fragrance for wardrobes, drawers, rooms and vehicles. Consumer product.

Uses advised against: Not for application to skin, hair or body. Not for ingestion. Do not open the pouch and apply contents to skin.

1.3 Details of the supplier / manufacturer

MOOSE AND PINE LIMITED PARTNERSHIP

154/74 Aom-Thai Garden Home Village, Moo 1, Boromratchachonnani Rd., Khun Kaeo, Nakhon Chai Si, Nakhon Pathom 73120, Thailand

Tax ID (Thailand): 0733565001848

D-U-N-S Number: 662722505

Telephone: +66-65-665-8297

Website / e-mail: www.moosepine.com · mkt@moosepine.com

1.4 Emergency telephone: +66-65-665-8297 (business hours) · Thailand Poison Control 1367

SECTION 2 — Hazards identification

2.1 Classification (GHS / CLP)

Not classified as a physical, health or environmental hazard under GHS for the finished article, and NOT classified as a dangerous good for transport.

Advisory only — the product contains fragrance: direct skin contact with the fragranced material may cause an allergic skin reaction (EUH208 / H317) in predisposed individuals.

2.2 Label elements

Signal word: Not required (finished article)

Pictograms: None required

Supplemental: EUH208: Contains fragrance allergens — may produce an allergic reaction. Keep away from children. Keep away from open flame.

2.3 Other hazards: None significant. The fragrance oil is retained in an absorbent carrier; no free liquid.

SECTION 3 — Composition / information on ingredients

Mixture. Finished article.

Component	CAS No.	% w/w	GHS classification
-----------	---------	-------	--------------------

Absorbent carrier (paper / fabric / polymer beads)	—	~ 80–90% (typical)	Not classified
Fragrance blend (proprietary)	Mixture	~ 10–20% (typical)	May contain sensitising fragrance allergens (limonene, linalool, etc.) — Skin Sens. 1, H317

Full text of H-statements: see Section 16. Confirm carrier type and fragrance load for your actual product.

SECTION 4 — First-aid measures

Skin contact: Wash with soap and water. If an allergic rash develops, seek medical advice.

Eye contact: Rinse with clean water. If irritation persists, seek medical advice.

Inhalation: Move to fresh air if the concentrated scent causes discomfort.

Ingestion: Not for ingestion. Do not induce vomiting; seek medical advice. Keep the pouch away from children (choking hazard from small parts/beads).

SECTION 5 — Firefighting measures

Suitable extinguishing media: Water, foam, dry chemical, CO₂.

Special hazards: The carrier material is combustible. Keep away from open flame. Combustion produces CO, CO₂ and smoke.

SECTION 6 — Accidental release measures

Solid finished article — no spill hazard. If the pouch breaks, collect the material and dispose. If beads are used, sweep up to avoid a slip hazard.

SECTION 7 — Handling and storage

Handling: Handle as an ordinary consumer article. Keep the pouch sealed until use.

Storage: Store in a cool, dry place away from direct sunlight and open flame to preserve fragrance. Keep away from children.

SECTION 8 — Exposure controls / personal protection

No special controls required for consumer use. During manufacturing (handling neat fragrance), use gloves and ensure ventilation.

SECTION 9 — Physical and chemical properties

Appearance	Solid scented material in a pouch (paper/fabric/beads)
Odour	Characteristic fragrance
Flash point	Not a flammable liquid (no free liquid; fragrance oil flash point > 60 °C)
Physical state	Solid
Solubility in water	Carrier insoluble; fragrance largely insoluble

SECTION 10 — Stability and reactivity

Stability: Stable under normal storage and use.

Conditions to avoid: Heat, open flame, direct sunlight.

Hazardous decomposition products: CO, CO₂ and smoke on combustion.

SECTION 11 — Toxicological information

Low hazard finished article. Main concern is possible allergic skin reaction from fragrance in sensitised individuals (H317). Small parts/beads may pose a choking hazard to young children. No data specific to the finished article; assessment based on components.

SECTION 12 — Ecological information

No significant ecological hazard expected from the finished article. Dispose of responsibly; do not release into watercourses.

SECTION 13 — Disposal considerations

Dispose of as ordinary household/solid waste in accordance with local regulations.

SECTION 14 — Transport information

NOT classified as a dangerous good under ADR (road), IMDG (sea) or IATA-DGR (air). No UN number. May be shipped by any standard service, including postal/air.

UN number	None — not regulated
Proper shipping name	Not applicable
Transport hazard class	None
Recommended HS code	3307.49 (other preparations for perfuming/deodorising rooms)

SECTION 15 — Regulatory information

This product is a home-fragrance article, not a cosmetic (not applied to the body); it is outside cosmetic-notification schemes in Malaysia (NPRA), Singapore (HSA) and Hong Kong. The EUH208 fragrance-allergen statement is recommended on the retail label.

SECTION 16 — Other information

Full text of statements referenced above

H317 May cause an allergic skin reaction. · EUH208 Contains [fragrance allergen] — may produce an allergic reaction.

Classification method: Self-classification based on component data and finished-article form. Confirm with the IFRA/allergen breakdown of each fragrance blend and the actual carrier/fragrance load.

Revision: Version 1.1 — 17 July 2026
